Capability Statement (Detailed)

FreightFloo (Feresu Logistics LLC) provides end-to-end transportation and logistics support for federal, state, and commercial customers. We coordinate time-sensitive moves across ground, intermodal, and maritime lanes using a carrier network and procurement-ready documentation.

Core Competencies

- Domestic transportation coordination (FTL/LTL, expedited, hotshot)
- Vehicle & heavy equipment transport (trailers, skid steer, forklifts, machinery)
- Household goods & office moves (pickup, linehaul coordination, delivery scheduling)
- Freight documentation & shipment visibility (BOL, POD, milestone updates)
- Carrier vetting, compliance checks, and performance tracking

Differentiators

- Procurement-friendly: clear scope, quotes, and audit-ready shipment records
- Flexible capacity: multi-carrier options to reduce single-point failure risk
- Service discipline: defined escalation paths and proactive ETA updates
- Multi-mode readiness: ground, intermodal, and maritime planning support

Past Performance & Use Cases

We support shipments requiring reliable pickup windows, clear documentation, and predictable delivery coordination. Typical use cases include equipment repositioning, time-sensitive freight, multi-stop deliveries, and project-based moves where stakeholders require consistent status updates.
